SUBJECT: Security Aspects of the

[REDACTED]

25X1A5A2

1. I told Shef Edwards that we are anxious to have the [REDACTED] perform basic research on unconventional and political warfare in connection with the [REDACTED] project. I said that we hoped it would be possible for the Agency to minimize for [REDACTED] some of the security clearance inconveniences that other CIA contractors sometimes confront. I emphasized that we do not desire to circumvent normal security precautions.

2. I stated the nature of the project and said that in general we could agree that it would not be necessary to disclose to [REDACTED] particulars about sensitive operations, code names and so on. I also reviewed [REDACTED] personnel security procedures as revealed to me yesterday by [REDACTED]

3. Colonel Edwards said that he was sure that we could work out a procedure that would minimize delay and other troublesome aspects of security clearances. He asked [REDACTED] to pull what information he had about [REDACTED] so that sometime the middle of next week he will be able to give us a reasonably clear picture of any difficulties we might expect to encounter. I was assured that his suggestion would not result in an undue burden to his staff.
